

FACILITIES TRAINING PROGRAMS

Empowering facilities to prepare, respond and recover faster from water emergencies

On-site, in-person and online customized training for facilities teams to optimize recovery from clean water intrusions.

R2R experts can effectively train all your team members – entry-level to facility managers to executives – to **enhance efficiency, reduce costs and ensure a healthy and safe environment.**

FIRST RESPONDER TRAINING

Held onsite at your facility for convenience

Customized to your facility's specific needs, this training ensures that all employees can respond to water events safely and effectively.

This hands-on course is essential for the front-line workers and supervisors who often respond first to water emergencies. Learn to assess damage, ensure safety, set up drying equipment, track moisture, and document progress and results.

R2R UNIVERSITY DRYING SCHOOL

Master water emergency response for in-house mitigation

Designed for facilities directors, managers and supervisors leading first responder teams, this comprehensive 2.5-day training offers extensive hands-on experience and classroom learning on how to coach teams in a water event. **Participants flood an offsite training facility** and learn how to apply the science of drying to minimize damage and improve recovery times.

VIDEO TRAINING

On-demand refresher training – anytime, anywhere

These **easy-to-understand videos** provide a refresher on how to evaluate and safely respond to water damage events. They can be accessed anytime online, using computers, mobile phones, or tablets and a unique password.

BUILDING CONFIDENT TEAMS AND IN-HOUSE SOLUTIONS
